PUBLISHER'S FOREWORD

Statutes

The 2012 Supplement to the Mississippi Code of 1972 Annotated reflects the statute law of Mississippi as amended by the Mississippi Legislature through the end of the 2012 Regular Session.

Annotations

Case annotations are included based on decisions of the State and federal courts in cases arising in Mississippi. Annotations to collateral research references are also included.

To better serve our customers by making our annotations more current, LexisNexis has changed the sources that are read to create annotations for this publication. Rather than waiting for cases to appear in printed reporters, we now read court decisions as they are released by the courts. A consequence of this more current reading of cases, as they are posted online on LexisNexis, is that the most recent cases annotated may not yet have print reporter citations. These will be provided, as they become available, through later publications.

This publication contains annotations taken from decisions of the Mississippi Supreme Court and the Court of Appeals and decisions of the appropriate federal courts. These cases will be printed in the following reporters:

- Southern Reporter, 3rd Series
- United States Supreme Court Reports
- Supreme Court Reporter
- United States Supreme Court Reports, Lawyers' Edition, 2nd Series
- Federal Reporter, 3rd Series
- Federal Supplement, 2nd Series
- Federal Rules Decisions
- Bankruptcy Reporter

Additionally, annotations have been taken from the following sources:

- American Law Reports, 6th Series
- American Law Reports, Federal Series
- Mississippi College Law Review
- Mississippi Law Journal

Finally, published opinions of the Attorney General and opinions of the Ethics Commission have been examined for annotations.

Amendment Notes

Amendment notes detail how the new legislation affects existing sections.

Editor's Notes

Editor's notes summarize subject matter and legislative history of repealed sections, provide information as to portions of legislative acts that have not been codified, or explain other pertinent information.

PUBLISHER'S FOREWORD

Joint Legislative Committee Notes

Joint Legislative Committee notes explain codification decisions and corrections of Code errors made by the Mississippi Joint Legislative Committee on Compilation, Revision, and Publication of Legislation.

Tables

The Statutory Tables volume adds tables showing disposition of legislative acts through the 2012 Regular Session.

Index

The comprehensive Index to the Mississippi Code of 1972 Annotated is replaced annually, and we welcome customer suggestions. The foreword to the Index explains our indexing principles, suggests guidelines for successful index research, and provides methods for contacting indexers.

(iv) For purposes of this paragraph (e):

1. "Telecommunications service" means the electronic transmission, conveyance or routing of voice, data, audio, video or any other information or signals to a point, or between points. The term "telecommunications service" includes such transmission, conveyance or routing in which computer processing applications are used to act on the form, code or protocol of the content for purposes of transmission, conveyance or routing without regard to whether such service is referred to as voice over Internet protocol services or is classified by the Federal Communications Commission as enhanced or value added. The term "telecommunications service" shall not include:

- a. Data processing and information services that allow data to be generated, acquired, stored, processed or retrieved and delivered by an electronic transmission to a purchaser where such purchaser's primary purpose for the underlying transaction is the processed data or information;

- b. Installation or maintenance of wiring or equipment on a customer's premises;
- c. Tangible personal property;
- d. Advertising, including, but not limited to, directory advertising;
- e. Billing and collection services provided to third parties;
- f. Internet access service;
- g. Radio and television audio and video programming services regardless of the medium, including the furnishing of transmission, conveyance and routing of such services by the programming service provider. Radio and television audio and video programming services shall include, but not be limited to, cable service as defined in 47 USCS 522(6) and audio and video programming services delivered by commercial mobile radio service providers, as defined in 47 CFR 20.3;
- h. Ancillary services; or
- i. Digital products delivered electronically, including, but not limited to, software, music, video, reading materials or ring tones.

2. "Ancillary services" means services that are associated with or incidental to the provision of telecommunications services, including, but not limited to, detailed telecommunications billing, directory assistance, vertical service and voice mail service.

a. "Conference bridging" means an ancillary service that links two (2) or more participants of an audio or video conference call and may include the provision of a telephone number. Conference bridging does not include the telecommunications services used to reach the conference bridge.

b. "Detailed telecommunications billing service" means an ancillary service of separately stating information pertaining to individual calls on a customer's billing statement.

c. "Directory assistance" means an ancillary service of providing telephone number information and/or address information.

d. "Vertical service" means an ancillary service that is offered in connection with one or more telecommunications services, which offers advanced calling features that allow customers to identify callers and to manage multiple calls and call connections, including conference bridging services.

e. "Voice mail service" means an ancillary service that enables the customer to store, send or receive recorded messages. Voice mail service does not include any vertical services that the customer may be required to have in order to utilize the voice mail service.

3. "Intrastate" means telecommunications service that originates in one (1) United States state or United States territory or possession, and terminates in the same United States state or United States territory or possession.

4. "Interstate" means a telecommunications service that originates in one (1) United States state or United States territory or possession,

and terminates in a different United States state or United States territory or possession.

5. "International" means a telecommunications service that originates or terminates in the United States and terminates or originates outside the United States, respectively.

(v) For purposes of paragraph (e), the following sourcing rules shall apply:

1. Except for the defined telecommunications services in item 3 of this subparagraph, the sales of telecommunications services sold on a call-by-call basis shall be sourced to:

a. Each level of taxing jurisdiction where the call originates and terminates in that jurisdiction, or

b. Each level of taxing jurisdiction where the call either originates or terminates and in which the service address is also located.

2. Except for the defined telecommunications services in item 3 of this subparagraph, a sale of telecommunications services sold on a basis other than a call-by-call basis, is sourced to the customer's place of primary use.

3. The sale of the following telecommunications services shall be sourced to each level of taxing jurisdiction as follows:

a. A sale of mobile telecommunications services other than air-to-ground radiotelephone service and prepaid calling service is sourced to the customer's place of primary use as required by the Mobile Telecommunication Sourcing Act.

A. A home service provider shall be responsible for obtaining and maintaining the customer's place of primary use. The home service provider shall be entitled to rely on the applicable residential or business street address supplied by such customer, if the home service provider's reliance is in good faith; and the home service provider shall be held harmless from liability for any additional taxes based on a different determination of the place of primary use for taxes that are customarily passed on to the customer as a separate itemized charge. A home service provider shall be allowed to treat the address used for purposes of the tax levied by this chapter for any customer under a service contract in effect on August 1, 2002, as that customer's place of primary use for the remaining term of such service contract or agreement, excluding any extension or renewal of such service contract or agreement. Month-to-month services provided after the expiration of a contract shall be treated as an extension or renewal of such contract or agreement.

B. If the commissioner determines that the address used by a home service provider as a customer's place of primary use does not meet the definition of the term "place of primary use" as defined in subitem a.A. of this item 3, the commissioner shall give binding notice to the home service provider to change the place of primary

use on a prospective basis from the date of notice of determination; however, the customer shall have the opportunity, prior to such notice of determination, to demonstrate that such address satisfies the definition.

C. The department has the right to collect any taxes due directly from the home service provider's customer that has failed to provide an address that meets the definition of the term "place of primary use" which resulted in a failure of tax otherwise due being remitted.

b. A sale of postpaid calling service is sourced to the origination point of the telecommunications signal as first identified by either:

A. The seller's telecommunications system; or

B. Information received by the seller from its service provider, where the system used to transport such signals is not that of the seller.

c. A sale of a prepaid calling service or prepaid wireless calling service shall be subject to the tax imposed by this paragraph if the sale takes place in this state. If the customer physically purchases a prepaid calling service or prepaid wireless calling service at the vendor's place of business, the sale is deemed to take place at the vendor's place of business. If the customer does not physically purchase the service at the vendor's place of business, the sale of a prepaid calling card or prepaid wireless calling card is deemed to take place at the first of the following locations that applies to the sale:

A. The customer's shipping address, if the sale involves a shipment;

B. The customer's billing address;

C. Any other address of the customer that is known by the vendor; or

D. The address of the vendor, or alternatively, in the case of a prepaid wireless calling service, the location associated with the mobile telephone number.

4. A sale of a private communication service is sourced as follows:

a. Service for a separate charge related to a customer channel termination point is sourced to each level of jurisdiction in which such customer channel termination point is located.

b. Service where all customer termination points are located entirely within one (1) jurisdiction or levels of jurisdiction is sourced in such jurisdiction in which the customer channel termination points are located.

c. Service for segments of a channel between two (2) customer channel termination points located in different jurisdictions and which segments of a channel are separately charged is sourced fifty percent (50%) in each level of jurisdiction in which the customer channel termination points are located.

d. Service for segments of a channel located in more than one (1) jurisdiction or levels of jurisdiction and which segments are not

separately billed is sourced in each jurisdiction based on the percentage determined by dividing the number of customer channel termination points in such jurisdiction by the total number of customer channel termination points.

5. A sale of ancillary services is sourced to the customer's place of primary use.

(vi) For purposes of subparagraph (v) of this paragraph (e):

1. "Air-to-ground radiotelephone service" means a radio service, as that term is defined in 47 CFR 22.99, in which common carriers are authorized to offer and provide radio telecommunications service for hire to subscribers in aircraft.

2. "Call-by-call basis" means any method of charging for telecommunications services where the price is measured by individual calls.

3. "Communications channel" means a physical or virtual path of communications over which signals are transmitted between or among customer channel termination points.

4. "Customer" means the person or entity that contracts with the seller of telecommunications services. If the end user of telecommunications services is not the contracting party, the end user of the telecommunications service is the customer of the telecommunications service. Customer does not include a reseller of telecommunications service or for mobile telecommunications service of a serving carrier under an agreement to serve the customer outside the home service provider's licensed service area.

5. "Customer channel termination point" means the location where the customer either inputs or receives the communications.

6. "End user" means the person who utilizes the telecommunications service. In the case of an entity, "end user" means the individual who utilizes the service on behalf of the entity.

7. "Home service provider" has the meaning ascribed to such term in Section 124(5) of Public Law 106-252 (Mobile Telecommunications Sourcing Act).

8. "Mobile telecommunications service" has the meaning ascribed to such term in Section 124(7) of Public Law 106-252 (Mobile Telecommunications Sourcing Act).

9. "Place of primary use" means the street address representative of where the customer's use of the telecommunications service primarily occurs, which must be the residential street address or the primary business street address of the customer. In the case of mobile telecommunications services, the place of primary use must be within the licensed service area of the home service provider.

10. "Post-paid calling service" means the telecommunications service obtained by making a payment on a call-by-call basis either through the use of a credit card or payment mechanism such as a bank card, travel card, credit card or debit card, or by charge made to a telephone number which is not associated with the origination or termination of

the telecommunications service. A post-paid calling service includes a telecommunications service, except a prepaid wireless calling service that would be a prepaid calling service except it is not exclusively a telecommunications service.

11. "Prepaid calling service" means the right to access exclusively telecommunications services, which must be paid for in advance and which enables the origination of calls using an access number or authorization code, whether manually or electronically dialed, and that is sold in predetermined units or dollars of which the number declines with use in a known amount.

12. "Prepaid wireless calling service" means a telecommunications service that provides the right to utilize mobile wireless service as well as other nontelecommunications services, including the download of digital products delivered electronically, content and ancillary service, which must be paid for in advance that is sold in predetermined units or dollars of which the number declines with use in a known amount.

13. "Private communication service" means a telecommunication service that entitles the customer to exclusive or priority use of a communications channel or group of channels between or among termination points, regardless of the manner in which such channel or channels are connected, and includes switching capacity, extension lines, stations and any other associated services that are provided in connection with the use of such channel or channels.

14. "Service address" means:

a. The location of the telecommunications equipment to which a customer's call is charged and from which the call originates or terminates, regardless of where the call is billed or paid.

b. If the location in subitem a of this item 14 is not known, the origination point of the signal of the telecommunications services first identified by either the seller's telecommunications system or in information received by the seller from its service provider, where the system used to transport such signals is not that of the seller.

c. If the location in subitems a and b of this item 14 are not known, the location of the customer's place of primary use.

(vii)1. For purposes of this subparagraph (vii), "bundled transaction" means a transaction that consists of distinct and identifiable properties or services which are sold for a single nonitemized price but which are treated differently for tax purposes.

2. In the case of a bundled transaction that includes telecommunications services, ancillary services, Internet access, or audio or video programming services taxed under this chapter in which the price of the bundled transaction is attributable to properties or services that are taxable and nontaxable, the portion of the price that is attributable to any nontaxable property or service shall be subject to the tax unless the provider can reasonably identify that portion from its books and records kept in the regular course of business.

3. In the case of a bundled transaction that includes telecommunications services, ancillary services, Internet access, audio or video programming services subject to tax under this chapter in which the price is attributable to properties or services that are subject to the tax but the tax revenue from the different properties or services are dedicated to different funds or purposes, the provider shall allocate the price among the properties or services:

- a. By reasonably identifying the portion of the price attributable to each of the properties and services from its books and records kept in the regular course of business; or
- b. Based on a reasonable allocation methodology approved by the department.

4. This subparagraph (vii) shall not create a right of action for a customer to require that the provider or the department, for purposes of determining the amount of tax applicable to a bundled transaction, allocate the price to the different portions of the transaction in order to minimize the amount of tax charged to the customer. A customer shall not be entitled to rely on the fact that a portion of the price is attributable to properties or services not subject to tax unless the provider elects, after receiving a written request from the customer in the form required by the provider, to provide verifiable data based upon the provider's books and records that are kept in the regular course of business that reasonably identifies the portion of the price attributable to the properties or services not subject to the tax.

(2) Persons making sales to consumers of electricity, current, power, natural gas, liquefied petroleum gas or other fuel for residential heating, lighting or other residential noncommercial or nonagricultural use or sales of potable water for residential, noncommercial or nonagricultural use shall indicate on each statement rendered to customers that such charges are exempt from sales taxes.

(3) There is hereby levied, assessed and shall be paid on transportation charges on shipments moving between points within this state when paid directly by the consumer, a tax equal to the rate applicable to the sale of the property being transported. Such tax shall be reported and paid directly to the Department of Revenue by the consumer.

(iv) The contract price or compensation received for constructing, building, erecting, repairing or adding to any building, facility or structure located at any refinery as defined in Section 27-65-24.

(c) Sales of materials and services for use in the activities hereby excluded from taxes imposed by this section, except services used in activities excluded pursuant to paragraph (b)(iii) of this subsection, shall be subject to taxes imposed by other sections in this chapter.

(2) Upon every person engaging or continuing in this state in the business of contracting or performing a contract of redrilling, or working over, or of drilling an oil well or a gas well, regardless of whether such well is productive or nonproductive, for any valuable consideration, there is hereby levied, assessed and shall be collected a tax equal to three and one-half percent (3-½%) of the total contract price or compensation received when such compensation exceeds Ten Thousand Dollars (\$10,000.00).

The words, terms and phrases as used in this subsection shall have the meaning ascribed to them as follows:

“Operator” — One who holds all or a fraction of the working or operating rights in an oil or gas lease, and is obligated for the costs of production either as a fee owner or under a lease or any other form of contract creating working or operating rights.

“Bottom-hole contribution” — Money or property given to an operator for his use in the drilling of a well on property in which the payor has no interest. The contribution is payable whether the well is productive or nonproductive.

“Dry-hole contribution” — Money or property given to an operator for his use in the drilling of a well on property in which the payor has no interest. Such contribution is payable only in the event the well is found to be nonproductive.

“Turnkey drilling contract” — A contract for the drilling of a well which requires the driller to drill a well and, if commercial production is obtained, to equip the well to such stage that the lessee or operator may turn a valve and the oil will flow into a tank.

“Total contract price or compensation received” — As related to oil and gas well contractors, shall include amounts received as compensation for all costs of performing a turnkey drilling contract; amounts received or to be received under assignment as dry-hole money or bottom-hole money; and shall mean and include anything of value received by the contractor as remuneration for services taxable hereunder. When the kind and amount of compensation received by the contractor is contingent upon production, the taxable amount shall be the total compensation receivable in the event the well is a dry hole. The taxable amount in the event of production when the contractor receives a production interest of an undetermined value in lieu of a fixed compensation shall be an amount equal to the compensation to the contractor if the well had been a dry hole.

(3) When the work to be performed under any contract is sublet by the prime contractor to different persons, or in separate contracts to the same persons, each such subcontractor performing any part of said work shall be liable for the amount of the tax which accrues on account of the work performed by such person when the tax heretofore imposed has not been paid upon the whole contract by the prime contractor.

When a person engaged in any business on which a tax is levied in Section 27-65-23, also qualifies as a contractor, and contracts with the owner of any project to perform any services in excess of Ten Thousand Dollars (\$10,000.00) herein taxed, such person shall pay the tax imposed by this section in lieu of the tax imposed by Section 27-65-23.

Any person entering into any contract over Seventy-five Thousand Dollars (\$75,000.00) as defined in this section shall, before beginning the performance of such contract or contracts, either pay the contractors' tax in advance, together with any use taxes due under Section 27-67-5, or execute and file with the commissioner a good and valid bond in a surety company authorized to do business in this state, or with sufficient sureties to be approved by the commissioner conditioned that all taxes which may accrue to the State of Mississippi under this chapter, or under Section 27-67-5 and Section 27-7-5, will be paid when due. Such bonds shall be either (a) “job bonds” which guarantee payment when due of the aforesaid taxes resulting from performance of a specified job or activity regardless of date of completion; or (b) “blanket bonds” which guarantee payment when due of the aforesaid taxes resulting from performance of all jobs or activities taxable under this section begun during the period specified therein, regardless of date of completion. The payments of the taxes due or the execution and filing of a surety bond shall be a condition precedent to the commencing work on any contract taxed hereunder. Provided, that when any bond is filed in lieu of the prepayment of the tax under this section, that the tax shall be payable monthly on the amount received during the previous month, and any use taxes due shall be payable on or before the twentieth day of the month following the month in which the property is brought into Mississippi.

Any person failing either to execute any bond herein provided, or to pay the taxes in advance, before beginning the performance of any contract shall be

denied the right to perform such contract until he complies with such requirements, and the commissioner is hereby authorized to proceed either under Section 27-65-59, under Section 27-65-61 or by injunction to prevent any activity in the performance of such contract until either a satisfactory bond is executed and filed, or all taxes are paid in advance, and a temporary injunction enjoining the execution of such contract shall be granted without notice by any judge or chancellor now authorized by law to grant injunctions.

Any person liable for a tax under this section may apply for and obtain a material purchase certificate from the commissioner which may entitle the holder to purchase materials and services that are to become a component part of the structure to be erected or repaired with no tax due. Provided, that the contractor applying for the contractor's material purchase certificate shall furnish the Department of Revenue a list of all work sublet to others, indicating the amount of work to be performed, and the names and addresses of each subcontractor.

Sureties upon contractors' bonds under Miss. Code Ann. § 27-65-21 were not en-

titled to notice of their principals' deficiencies, audits, or assessments from the Mississippi State Tax Commission, as their right to notice did not arise until principals defaulted on paying the assessments under the language of the bonds and Miss. Code Ann. § 27-65-57. *Fid. & Guar. Ins. Co. v. Blount*, 63 So. 3d 453 (Miss. 2011).

ATTORNEY GENERAL OPINIONS

The current corporate lessee of county-owned property first leased in 1963 under the old A. & I. statutes with exemption from ad valorem taxes for an unspecified period is entitled to an exemption for 10 years from the date the county approved assignment of the lease to that company. When the 10 years has already expired

and the county erroneously omitted that leasehold from the tax assessment rolls for several years, the county may not assess back taxes. Approval by the county of sub-leases of the property is not an unlawful donation to a private party. *Munn*, March 9, 2007, A.G. Op. #07-00067, 2007 Miss. AG LEXIS 101.

§ 27-65-24. Sales of manufacturing or processing machinery to be installed and/or used at refinery; performance of construction activities at or in regard to refinery.

(1) There is levied, assessed and shall be collected a tax on the sale of manufacturing or processing machinery to be installed and/or used at a refinery in this state and on the performance of construction activities at or in regard to a refinery in this state. The tax is in the amount of:

(a) One and one-half percent (1-½%) on the gross proceeds of sales for manufacturing or processing machinery without any regard as to whether or not the machinery retains its identity as tangible personal property after installation; and

(b) Three and one-half percent (3-½%) of one hundred three and one-half percent (103-½%) of the total contract price or compensation paid for the performance of a construction activity.

(2) If the owner of the refinery holds a direct pay permit issued by the Department of Revenue under Section 27-65-93, the owner shall furnish the permit to the seller or person performing the construction activity unless the holder of the direct pay permit is given written instructions or written authority to do otherwise by the commissioner. After being furnished the direct pay permit, the seller or person performing the construction activity shall be relieved of the duty to collect the tax imposed under subsection (1) of this section and the owner of the refinery shall pay the tax in the manner required by rule and regulation promulgated by the commissioner. The commissioner may assign a distinctive number to the refinery and issue the distinctive number to the owner. The owner of the refinery may furnish the distinctive number to persons performing construction activities in order to allow such persons to purchase component materials and parts for use in the construction activity without the requirement of paying sales tax on the purchases.

(3) Any owner of a refinery who makes application for a distinctive number as provided for in subsection (2), shall be required to execute and file with the commissioner a good and valid bond in a surety company authorized to do business in this state, or with sufficient sureties to be approved by the commissioner, conditioned that all taxes which may accrue to the State of Mississippi under this chapter will be paid when due.

(4) As used in this section:

(a) “Refinery” means any facility that manufactures finished petroleum products from crude oil, unfinished oils, natural gas liquids, other hydrocarbons, or alcohol. The term “refinery” does not include terminals, bulk plants or other locations where finished products are blended.

(b) “Construction activity” means the performance of any activity involving and/or incidental to constructing, building, erecting, repairing, grading, excavating, drilling, exploring, testing or adding to any building, highway, street, sidewalk, bridge, culvert, sewer, irrigation or water system, drainage or dredging system, levee or levee system or any part thereof, railway, reservoir, dam, power plant, electrical system, air-conditioning system, heating system, transmission line, pipeline, tower, dock, storage tank, wharf, excavation, grading, water well, and other improvement or structure or any part thereof.

(c) “Total contract price or compensation received” means all compensation received for the performance of construction activities, including monies received for all charges related to the contract or construction activities, including, but not limited to, finance charges and late charges; however, where the total contract price of a project exceeds the sum of One Hundred Million Dollars (\$100,000,000.00) that portion of the compensation received in regard to the project that is attributable to design or engineering shall not be considered part of the total contract price or compensation received for construction activities from the project.

§ 27-65-33. Returns.

[Until July 1, 2013, this section shall read as follows:]

(1) Except as otherwise provided in this section, the taxes levied by this chapter shall be due and payable on or before the twentieth day of the month next succeeding the month in which the tax accrues, except as otherwise provided. Returns and payments placed in the mail must be postmarked by the due date in order to be considered timely filed, except when the due date falls on a weekend or holiday, returns and payments placed in the mail must be postmarked by the first working day following the due date in order to be considered timely filed. The taxpayer shall make a return showing the gross proceeds of sales or the gross income of the business, and any and all allowable deductions, or exempt sales, and compute the tax due for the period covered.

As compensation for collecting sales and use taxes, complying fully with the applicable statutes, filing returns and supplements thereto and paying all taxes by the twentieth of the month following the period covered, the taxpayer may discount and retain two percent (2%) of the liability on each return subject to the following limitations:

(a) The compensation or discount shall not apply to taxes levied under the provisions of Sections 27-65-19 and 27-65-21, or on charges for ginning cotton under Section 27-65-23.

(b) The compensation or discount shall not apply to taxes collected by a county official or state agency.

(c) The compensation or discount shall not exceed Fifty Dollars (\$50.00) per month, or Six Hundred Dollars (\$600.00) per calendar year, per business location on each state sales tax return, or on each use tax return.

(d) The compensation or discount shall not apply to any wholesale tax, the rate of which is equal to or greater than the tax rate applicable to retail sales of the same property or service. The retailer of such items shall be entitled to the compensation based on the tax computed on retail sales before application of the credit for any tax paid to the wholesaler, jobber, or other person.

(e) The compensation or discount allowed and taken for any filing period may be reassessed and collected when an audit of a taxpayer's records reveals a tax deficiency for that period.

(2) A taxpayer required to collect sales taxes under this chapter and having an average monthly sales tax liability of at least Twenty Thousand Dollars (\$20,000.00) for the preceding calendar year shall pay to the Department of Revenue on or before June 25, 2003, and on or before the twenty-fifth day of June of each succeeding year thereafter, an amount equal to at least seventy-five percent (75%) of such taxpayer's estimated sales tax liability for the month of June of the current calendar year, or an amount equal to at least seventy-five percent (75%) of the taxpayer's sales tax liability for the month of June of the preceding calendar year. Payments required to be made under this subsection must be received by the Department of Revenue no later than June 25 in order to be considered timely made. A taxpayer that fails to comply with the requirements of this subsection may be assessed a penalty in an amount equal to ten percent (10%) of the difference between any amount the taxpayer pays pursuant to this subsection and the taxpayer's actual sales tax liability for the month of June for which the estimated payment was required to be made. Payments made by a taxpayer under this subsection shall not be considered to be collected for the purposes of any sales tax diversions required by law until the taxpayer files a return for the actual sales taxes collected during the month of June. This subsection shall not apply to any agency, department or instrumentality of the United States, any agency, department, institution, instrumentality or political subdivision of the State of Mississippi, or any agency, department, institution or instrumentality of any political subdivision of the State of Mississippi. Payments made pursuant to this subsection for the month of June 2003, shall be deposited by the Department of Revenue into the Budget Contingency Fund created under Section 27-103-301, and payments made pursuant to this subsection for the month of June 2004, and each succeeding year thereafter, shall be deposited by the Department of Revenue into the State General Fund.

(3) All returns shall be sworn to by the taxpayer, if made by an individual, or by the president, vice president, secretary or treasurer of a

corporation, or authorized agent, if made on behalf of a corporation. If made on behalf of a partnership, joint venture, association, trust, estate, or in any other group or combination acting as a unit, any individual delegated by such firm shall swear to the return on behalf of the taxpayer. The commissioner may prescribe methods by which the taxpayer may swear to his return.

(4) The commissioner may promulgate rules and regulations to require or permit filing periods of any duration, in lieu of monthly filing periods, for any taxpayer or group thereof.

(5) The commissioner may require the execution and filing by the taxpayer with the commissioner of a good and solvent bond with some surety company authorized to do business in Mississippi as surety thereon in an amount double the aggregate tax liability by such taxpayer for any previous three (3) months' period within the last calendar year or estimated three (3) months' tax liability. The bond is to be conditioned for the prompt payment of such taxes as may be due for each such return.

(6) The commissioner, for good cause, may grant such reasonable additional time within which to make any return required under the provisions of this chapter as he may deem proper, but the time for filing any return shall not be extended beyond the twentieth of the month next succeeding the regular due date of the return without the imposition of interest at the rate of one percent (1%) per month or fractional part of a month from the time the return was due until the tax is paid.

(7) For persistent, willful, or recurring failure to make any return and pay the tax shown thereby to be due by the time specified, there shall be added to the amount of tax shown to be due ten percent (10%) damages, or interest at the rate of one percent (1%) per month, or both.

(8) Any taxpayer may, upon making application therefor, obtain from the commissioner an extension of time for the payment of taxes due on credit sales until collections thereon have been made. When such extension is granted, the taxpayer shall thereafter include in each monthly or quarterly report all collections made during the preceding month or quarter, and shall pay the taxes due thereon at the time of filing such report. Such permission may be revoked or denied at the discretion of the commissioner when, in his opinion, a total sales basis will best reflect the taxable income or expedite examination of the taxpayer's records.

(9) Any taxpayer reporting credit sales before collection thereof has been made may take credit on subsequent returns or reports for bad debts actually charged off, if such amounts charged off have previously been included in taxable gross income or taxable gross proceeds of sales, as the case may be, and the tax paid thereon. However, any amounts subsequently collected on accounts that have been charged off as bad debts shall be included in subsequent reports and the tax shall be paid thereon.

(10) In cases where an extension of time has been granted by the commissioner for payment of taxes due on credit sales and the taxpayer thereafter discontinues the business, such taxpayer shall be required to file

with the commissioner within ten (10) days, or such further time as the commissioner may direct, from the date of the discontinuance of such business, a special report showing the amounts of any credit sales which have not been included in determining the measure of the tax previously paid and any other information with reference to credit sales as the commissioner may require. The commissioner shall thereupon investigate the facts with reference to credit sales and the condition of the accounts, and shall determine, from the best evidence available, the value of all open accounts, notes, or other evidence of debt arising from credit sales. The value of all notes, open accounts and other evidence of debt, as thus determined by the commissioner, shall be used in determining the amount of the tax for which such taxpayer shall be liable. When the amount of the tax shall have been ascertained, the taxpayer shall be required to pay the same within ten (10) days or such further time as the commissioner may allow, notwithstanding the fact that such note or accounts may still remain uncollected.

[From and after July 1, 2013, this section shall read as follows:]

(1) Except as otherwise provided in this section, the taxes levied by this chapter shall be due and payable on or before the twentieth day of the month next succeeding the month in which the tax accrues, except as otherwise provided. Returns and payments placed in the mail must be postmarked by the due date in order to be considered timely filed, except when the due date falls on a weekend or holiday, returns and payments placed in the mail must be postmarked by the first working day following the due date in order to be considered timely filed. The taxpayer shall make a return showing the gross proceeds of sales or the gross income of the business, and any and all allowable deductions, or exempt sales, and compute the tax due for the period covered.

As compensation for collecting sales and use taxes, complying fully with the applicable statutes, filing returns and supplements thereto and paying all taxes by the twentieth of the month following the period covered, the taxpayer may discount and retain two percent (2%) of the liability on each return subject to the following limitations:

(a) The compensation or discount shall not apply to taxes levied under the provisions of Sections 27-65-19 and 27-65-21, or on charges for ginning cotton under Section 27-65-23.

(b) The compensation or discount shall not apply to taxes collected by a county official or state agency.

(c) The compensation or discount shall not exceed Fifty Dollars (\$50.00) per month, or Six Hundred Dollars (\$600.00) per calendar year, per business location on each state sales tax return, or on each use tax return.

(d) The compensation or discount shall not apply to any wholesale tax, the rate of which is equal to or greater than the tax rate applicable to retail sales of the same property or service. The retailer of such items shall be entitled to the compensation based on the tax computed on retail sales

before application of the credit for any tax paid to the wholesaler, jobber or other person.

(e) The compensation or discount allowed and taken for any filing period may be reassessed and collected when an audit of a taxpayer's records reveals a tax deficiency for that period.

(2) A taxpayer required to collect sales taxes under this chapter and having an average monthly sales tax liability of at least Fifty Thousand Dollars (\$50,000.00) for the preceding calendar year shall pay to the Department of Revenue on or before June 25, 2014, and on or before the twenty-fifth day of June of each succeeding year thereafter, an amount equal to at least seventy-five percent (75%) of such taxpayer's estimated sales tax liability for the month of June of the current calendar year, or an amount equal to at least seventy-five percent (75%) of the taxpayer's sales tax liability for the month of June of the preceding calendar year. For the purposes of calculating a taxpayer's estimated sales tax liability for the month of June of the current calendar year, the taxpayer does not have to include taxes due on credit sales for which the taxpayer has not received payment before June 20. Payments required to be made under this subsection must be received by the Department of Revenue no later than June 25 in order to be considered timely made. A taxpayer that fails to comply with the requirements of this subsection may be assessed a penalty in an amount equal to ten percent (10%) of the difference between any amount the taxpayer pays pursuant to this subsection and the taxpayer's actual sales tax liability for the month of June for which the estimated payment was required to be made. Payments made by a taxpayer under this subsection shall not be considered to be collected for the purposes of any sales tax diversions required by law until the taxpayer files a return for the actual sales taxes collected during the month of June. This subsection shall not apply to any agency, department or instrumentality of the United States, any agency, department, institution, instrumentality or political subdivision of the State of Mississippi, or any agency, department, institution or instrumentality of any political subdivision of the State of Mississippi.

(3) All returns shall be sworn to by the taxpayer, if made by an individual, or by the president, vice president, secretary or treasurer of a corporation, or authorized agent, if made on behalf of a corporation. If made on behalf of a partnership, joint venture, association, trust, estate, or in any other group or combination acting as a unit, any individual delegated by such firm shall swear to the return on behalf of the taxpayer. The commissioner may prescribe methods by which the taxpayer may swear to his return.

(4) The commissioner may promulgate rules and regulations to require or permit filing periods of any duration, in lieu of monthly filing periods, for any taxpayer or group thereof.

(5) The commissioner may require the execution and filing by the taxpayer with the commissioner of a good and solvent bond with some surety company authorized to do business in Mississippi as surety thereon in an

amount double the aggregate tax liability by such taxpayer for any previous three-month period within the last calendar year or estimated three (3) months' tax liability. The bond is to be conditioned for the prompt payment of such taxes as may be due for each such return.

(6) The commissioner, for good cause, may grant such reasonable additional time within which to make any return required under the provisions of this chapter as he may deem proper, but the time for filing any return shall not be extended beyond the twentieth of the month next succeeding the regular due date of the return without the imposition of interest at the rate of one percent (1%) per month or fractional part of a month from the time the return was due until the tax is paid.

(7) For persistent, willful or recurring failure to make any return and pay the tax shown thereby to be due by the time specified, there shall be added to the amount of tax shown to be due ten percent (10%) damages, or interest at the rate of one percent (1%) per month, or both.

(8) Any taxpayer may, upon making application therefor, obtain from the commissioner an extension of time for the payment of taxes due on credit sales until collections thereon have been made. When such extension is granted, the taxpayer shall thereafter include in each monthly or quarterly report all collections made during the preceding month or quarter, and shall pay the taxes due thereon at the time of filing such report. Such permission may be revoked or denied at the discretion of the commissioner when, in his opinion, a total sales basis will best reflect the taxable income or expedite examination of the taxpayer's records.

(9) Any taxpayer reporting credit sales before collection thereof has been made may take credit on subsequent returns or reports for bad debts actually charged off, if such amounts charged off have previously been included in taxable gross income or taxable gross proceeds of sales, as the case may be, and the tax paid thereon. However, any amounts subsequently collected on accounts that have been charged off as bad debts shall be included in subsequent reports and the tax shall be paid thereon.

(10) In cases where an extension of time has been granted by the commissioner for payment of taxes due on credit sales and the taxpayer thereafter discontinues the business, such taxpayer shall be required to file with the commissioner within ten (10) days, or such further time as the commissioner may direct, from the date of the discontinuance of such business, a special report showing the amounts of any credit sales which have not been included in determining the measure of the tax previously paid and any other information with reference to credit sales as the commissioner may require. The commissioner shall thereupon investigate the facts with reference to credit sales and the condition of the accounts, and shall determine, from the best evidence available, the value of all open accounts, notes or other evidence of debt arising from credit sales. The value of all notes, open accounts and other evidence of debt, as thus determined by the commissioner, shall be used in determining the amount of the tax for which such taxpayer shall be liable. When the amount of the tax shall have

been ascertained, the taxpayer shall be required to pay the same within ten (10) days or such further time as the commissioner may allow, notwithstanding the fact that such note or accounts may still remain uncollected.

§ 27-65-39. Penalties for deficient or delinquent return.

If any part of the deficient or delinquent tax is due to negligence or failure to comply with the provisions of this chapter or authorized rules and regulations promulgated under the provisions of this chapter without intent to defraud, there may be added as damages ten percent (10%) of the total amount of deficiency or delinquency in the tax, or interest at the rate of one percent (1%) per month, or both, from the date such tax was due until paid, and the tax, damages and interest shall become payable upon notice and demand by the commissioner.

If any part of the deficient or delinquent tax is due to intentional disregard of the provisions of this chapter or authorized rules and regulations promulgated under the provisions of this chapter, or to fraud with intent to evade the law, then there shall be added as damages fifty percent (50%) of the total amount of the deficiency or delinquency of the tax, and in such case the whole amount of tax unpaid, including the charges so added, shall become due and payable upon notice and demand by the commissioner, and interest of one percent (1%) per month of the tax shall be added from the date such tax was due until paid.

On or before the fifteenth day of each month, the revenue collected under the provisions of this chapter during the preceding month shall be paid and distributed as follows:

(1)(a) On or before August 15, 1992, and each succeeding month thereafter through July 15, 1993, eighteen percent (18%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3) and 27-65-21, on business activities within a municipal corporation shall be allocated for distribution to the municipality and paid to the municipal corporation. On or before August 15, 1993, and each succeeding month thereafter, eighteen and one-half percent (18-½%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3), 27-65-21 and 27-65-24, on business activities within a municipal corporation shall be allocated for distribution to the municipality and paid to the municipal corporation.

A municipal corporation, for the purpose of distributing the tax under this subsection, shall mean and include all incorporated cities, towns and villages.

Monies allocated for distribution and credited to a municipal corporation under this subsection may be pledged as security for a loan if the distribution received by the municipal corporation is otherwise authorized or required by law to be pledged as security for such a loan.

In any county having a county seat that is not an incorporated municipality, the distribution provided under this subsection shall be made as though the county seat was an incorporated municipality; however, the distribution to the municipality shall be paid to the county treasury in which the municipality is located, and those funds shall be used for road, bridge and street construction or maintenance in the county.

(b) On or before August 15, 2006, and each succeeding month thereafter, eighteen and one-half percent (18-½%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Sections 27-65-15, 27-65-19(3) and 27-65-21, on business activities on the campus of a state institution of higher learning or community or junior college whose campus is not located within the corporate limits of a municipality, shall be allocated for distribution to the state institution of higher learning or community or

junior college and paid to the state institution of higher learning or community or junior college.

(2) On or before September 15, 1987, and each succeeding month thereafter, from the revenue collected under this chapter during the preceding month, One Million One Hundred Twenty-five Thousand Dollars (\$1,125,000.00) shall be allocated for distribution to municipal corporations as defined under subsection (1) of this section in the proportion that the number of gallons of gasoline and diesel fuel sold by distributors to consumers and retailers in each such municipality during the preceding fiscal year bears to the total gallons of gasoline and diesel fuel sold by distributors to consumers and retailers in municipalities statewide during the preceding fiscal year. The Department of Revenue shall require all distributors of gasoline and diesel fuel to report to the department monthly the total number of gallons of gasoline and diesel fuel sold by them to consumers and retailers in each municipality during the preceding month. The Department of Revenue shall have the authority to promulgate such rules and regulations as is necessary to determine the number of gallons of gasoline and diesel fuel sold by distributors to consumers and retailers in each municipality. In determining the percentage allocation of funds under this subsection for the fiscal year beginning July 1, 1987, and ending June 30, 1988, the Department of Revenue may consider gallons of gasoline and diesel fuel sold for a period of less than one (1) fiscal year. For the purposes of this subsection, the term "fiscal year" means the fiscal year beginning July 1 of a year.

(3) On or before September 15, 1987, and on or before the fifteenth day of each succeeding month, until the date specified in Section 65-39-35, the proceeds derived from contractors' taxes levied under Section 27-65-21 on contracts for the construction or reconstruction of highways designated under the highway program created under Section 65-3-97 shall, except as otherwise provided in Section 31-17-127, be deposited into the State Treasury to the credit of the State Highway Fund to be used to fund that highway program. The Mississippi Department of Transportation shall provide to the Department of Revenue such information as is necessary to determine the amount of proceeds to be distributed under this subsection.

(4) On or before August 15, 1994, and on or before the fifteenth day of each succeeding month through July 15, 1999, from the proceeds of gasoline, diesel fuel or kerosene taxes as provided in Section 27-5-101(a)(ii)1, Four Million Dollars (\$4,000,000.00) shall be deposited in the State Treasury to the credit of a special fund designated as the "State Aid Road Fund," created by Section 65-9-17. On or before August 15, 1999, and on or before the fifteenth day of each succeeding month, from the total amount of the proceeds of gasoline, diesel fuel or kerosene taxes apportioned by Section 27-5-101(a)(ii)1, Four Million Dollars (\$4,000,000.00) or an amount equal to twenty-three and one-fourth percent (23-1/4%) of those funds, whichever is the greater amount, shall be deposited in the State Treasury to the credit of the "State Aid Road Fund," created by Section 65-9-17. Those funds shall be

pledged to pay the principal of and interest on state aid road bonds heretofore issued under Sections 19-9-51 through 19-9-77, in lieu of and in substitution for the funds previously allocated to counties under this section. Those funds may not be pledged for the payment of any state aid road bonds issued after April 1, 1981; however, this prohibition against the pledging of any such funds for the payment of bonds shall not apply to any bonds for which intent to issue those bonds has been published for the first time, as provided by law before March 29, 1981. From the amount of taxes paid into the special fund under this subsection and subsection (9) of this section, there shall be first deducted and paid the amount necessary to pay the expenses of the Office of State Aid Road Construction, as authorized by the Legislature for all other general and special fund agencies. The remainder of the fund shall be allocated monthly to the several counties in accordance with the following formula:

- (a) One-third ($\frac{1}{3}$) shall be allocated to all counties in equal shares;
- (b) One-third ($\frac{1}{3}$) shall be allocated to counties based on the proportion that the total number of rural road miles in a county bears to the total number of rural road miles in all counties of the state; and
- (c) One-third ($\frac{1}{3}$) shall be allocated to counties based on the proportion that the rural population of the county bears to the total rural population in all counties of the state, according to the latest federal decennial census.

For the purposes of this subsection, the term "gasoline, diesel fuel or kerosene taxes" means such taxes as defined in paragraph (f) of Section 27-5-101.

The amount of funds allocated to any county under this subsection for any fiscal year after fiscal year 1994 shall not be less than the amount allocated to the county for fiscal year 1994.

Any reference in the general laws of this state or the Mississippi Code of 1972 to Section 27-5-105 shall mean and be construed to refer and apply to subsection (4) of Section 27-65-75.

(5) One Million Six Hundred Sixty-six Thousand Six Hundred Sixty-six Dollars (\$1,666,666.00) each month shall be paid into the special fund known as the "State Public School Building Fund" created and existing under the provisions of Sections 37-47-1 through 37-47-67. Those payments into that fund are to be made on the last day of each succeeding month hereafter.

(6) An amount each month beginning August 15, 1983, through November 15, 1986, as specified in Section 6 of Chapter 542, Laws of 1983, shall be paid into the special fund known as the Correctional Facilities Construction Fund created in Section 6 of Chapter 542, Laws of 1983.

Thereafter, the amounts diverted under this subsection (7) during the fiscal year in excess of Forty-two Million Dollars (\$42,000,000.00) shall be deposited into the Education Enhancement Fund created under Section 37-61-33 for appropriation by the Legislature as other education needs and shall not be subject to the percentage appropriation requirements set forth in Section 37-61-33.

(8) On or before August 15, 1992, and each succeeding month thereafter, nine and seventy-three one-thousandths percent (9.073%) of the total sales tax revenue collected during the preceding month under the provisions of this chapter, except that collected under the provisions of Section 27-65-17(2), shall be deposited into the Education Enhancement Fund created under Section 37-61-33.

(1) As used in this section, the following terms shall have the meanings ascribed to them in this section unless otherwise clearly indicated by the context in which they are used:

(a) “Hotel” or ‘motel’ means and includes a place of lodging that at any one time will accommodate transient guests on a daily or weekly basis and that is known to the trade as such. Such terms shall not include a place of lodging with ten (10) or less rental units.

(b) “Municipality” means any municipality in the State of Mississippi with a population of one hundred fifty thousand (150,000) or more according to the most recent federal decennial census.

(c) “Restaurant” means and includes all places where prepared food is sold and whose annual gross proceeds of sales or gross income for the preceding calendar year equals or exceeds One Hundred Thousand Dollars (\$100,000.00). The term “restaurant” shall not include any nonprofit organization that is exempt from federal income taxation under Section 501(c)(3) of the Internal Revenue Code. For the purpose of calculating gross proceeds of sales or gross income, the sales or income of all establishments owned, operated or controlled by the same person, persons or corporation shall be aggregated.

(2)(a) Subject to the provisions of this section, the governing authorities of a municipality may impose upon all persons as a privilege for engaging or continuing in business or doing business within such municipality, a special sales tax at the rate of not more than one percent (1%) of the gross proceeds of sales or gross income of the business, as the case may be, derived from any of the activities taxed at the rate of seven percent (7%) or more under the Mississippi Sales Tax Law, Section 27-65-1 et seq.

(b) The tax levied under this section shall apply to every person making sales, delivery or installations of tangible personal property or services within the municipality but shall not apply to:

(i) Sales exempted by Sections 27-65-19, 27-65-101, 27-65-103, 27-65-105, 27-65-107, 27-65-109 and 27-65-111 of the Mississippi Sales Tax Law;

(iii) Gross proceeds of sales or gross income of hotels and motels derived from the sale of hotel rooms and motel rooms for lodging purposes;

(iv) Retail sales of food for human consumption not purchased with food stamps issued by the United States Department of Agriculture, or other federal agency, but which would be exempt under Section 27-65-111(o) from the taxes imposed by this chapter if the food items were purchased with food stamps; and

(v) Gross income of businesses engaging or continuing in the business of TV cable systems, subscription TV services, and other similar activities, including, but not limited to, cable Internet services.

(3) Before any tax authorized under this section may be imposed, the governing authorities of the municipality shall adopt a resolution declaring its intention to levy the tax, setting forth the amount of the tax to be imposed, the purposes for which the revenue collected pursuant to the tax levy may be used and expended, the date upon which the tax shall become effective and calling for an election to be held on the question. The date of the election shall be set in the resolution. Notice of the election shall be published once each week for at least three (3) consecutive weeks in a newspaper published or having a general circulation in the municipality, with the first publication of the notice to be made not less than twenty-one (21) days before the date fixed in the resolution for the election and the last publication to be made not more than seven (7) days before the election. At the election, all qualified electors of the municipality may vote. The ballots used at the election shall have printed thereon a brief description of the sales tax, the amount of the sales tax levy, a description of the purposes for which the tax revenue may be used and expended and the words "FOR THE LOCAL SALES TAX" and "AGAINST THE LOCAL SALES TAX" and the voter shall vote by placing a cross (X) or check mark () opposite his choice on the proposition. When the results of the election have been canvassed by the election commissioners of the municipality and certified by them to the governing authorities, it shall be the duty of such governing authorities to determine and adjudicate whether at least three-fifths (3/5) of the qualified electors who voted in the election voted in favor of the tax. If at least three-fifths (3/5) of the qualified electors who voted in the election voted in favor of the tax, the governing authorities shall adopt a resolution declaring the levy and collection of the tax provided in this section and shall set the first day of the second month following the date of such adoption as the effective date of the tax levy. A certified copy of this resolution, together with the result of the election, shall be furnished to the State Tax Commission not less than thirty (30) days before the effective date of the levy.

(4) Upon approval of the expenditure by the commission established pursuant to subsection (7) of this section, the revenue collected pursuant to the tax levy imposed under this section may be expended for the following purposes:

(a) To enhance police and fire protection services;

(b) To pay for emergency road and street repairs and emergency water system and sewage system projects; and

(c) To pay the cost of road and street repair, reconstruction and resurfacing projects based on traffic patterns, need and usage.

(5)(a) The special sales tax authorized by this section shall be collected by the State Tax Commission, shall be accounted for separately from the amount of sales tax collected for the state in the municipality and shall be paid to the municipality. The State Tax Commission may retain three percent (3%) of the proceeds of such tax for the purpose of defraying the costs incurred by the commission in the collection of the tax. Payments to the municipality shall be made by the State Tax Commission on or before the fifteenth day of the month following the month in which the tax was collected.

(b) Thirty percent (30%) of the proceeds of the special sales tax shall be placed into a special municipal fund apart from the municipal general fund and any other funds of the municipality, and shall be expended by the municipality solely for the purposes authorized in subsection (4)(a) and (b) of this section. The remainder of the proceeds of the special sales tax shall be placed into a special municipal fund apart from the municipal general fund and any other funds of the municipality, and shall be expended by the municipality solely for the purposes authorized in subsection (4)(c) of this section. The records reflecting the receipts and expenditures of the revenue from the special sales tax shall be audited annually by an independent certified public accountant. The accountant shall make a report of his findings to the governing authorities of the municipality and file a copy of his report with the Secretary of the Senate and the Clerk of the House of Representatives. The audit shall be made and completed as soon as practical after the close of the fiscal year of the municipality, and expenses of the audit shall be paid from the funds derived by the municipality pursuant to this section.

(c) All provisions of the Mississippi Sales Tax Law applicable to filing of returns, discounts to the taxpayer, remittances to the State Tax Commission, enforced collection, rights of taxpayers, recovery of improper taxes, refunds of overpaid taxes or other provisions of law providing for imposition and collection of the state sales tax shall apply to the special sales tax authorized by this section, except where there is a conflict, in which case the provisions of this section shall control. Any damages, penalties or interest collected for the nonpayment of taxes imposed under this section, or for noncompliance with the provisions of this section, shall be paid to the municipality on the same basis and in the same manner as the tax proceeds. Any overpayment of tax for any reason that has been disbursed to a municipality or any payment of the tax to a municipality in error may be adjusted by the State Tax Commission on any subsequent payment to the municipality pursuant to the provisions of the Mississippi Sales Tax Law. The State Tax Commission may, from time to time, make such rules and regulations not inconsistent with this section as may be deemed necessary to carry out the provisions of this section, and such rules and regulations shall have the full force and effect of law.

(6) If a municipality expands its corporate boundaries, the governing authorities of the municipality may not impose the special sales tax in the annexed area unless the tax is approved at an election conducted, as far as is practicable, in the manner provided in subsection (3) of this section, except that only qualified electors in the annexed area may vote in the election.

(7)(a) Any municipality that levies the special sales tax authorized under this section shall establish a commission as provided for in this section. No expenditure of revenue from the special sales tax authorized by this section may be made without the prior approval of the expenditure by the commission.

(b) The commission shall be composed of nine (9) voting members and one (1) nonvoting member who shall be known as commissioners appointed as follows:

(i) Four (4) members representing the business community in the municipality appointed by the mayor of the municipality, from a list of eight (8) nominees submitted by the local chamber of commerce for initial terms of one (1), two (2), four (4) and five (5) years respectively. (d) The terms of all appointments made subsequent to the initial appointment shall be made for five (5) years. Any vacancy which may occur shall be filled in the same manner as the original appointment and shall be made for the unexpired term. Each member of the commission shall serve until his successor is appointed and qualified.

(e) The mayor of the municipality shall designate a chairman of the commission from among the membership of the commission. The vice chairman and secretary shall be elected by the commission from among the membership of the commission for a term of two (2) years. The vice chairman and secretary may be reelected, and the chairman may be reappointed.

(f) The commissioners shall serve without compensation.

(g) Any commissioner shall be disqualified and shall be removed from office for either of the following reasons:

- (i) Conviction of a felony in any state court or in federal court; or
- (ii) Failure to attend three (3) consecutive meetings without just cause.

If a commissioner is removed for any of the above reasons, the vacancy shall be filled in the manner prescribed in this section and shall be made for the unexpired term.

(h) Before assuming the duties of office, each commissioner shall take the oath prescribed by law and shall enter into and give bond, to be approved by the Secretary of State of the State of Mississippi, in the sum of Twenty-five Thousand Dollars (\$25,000.00), conditioned upon the faithful performance of his duties. Such bond shall be payable to the State of Mississippi, and, in the event of a breach thereof, suit may be brought by the State of Mississippi for the benefit of the commission. The premiums on such bonds shall be paid from the funds received by the commission under the provisions of this section.

(i) A quorum shall consist of five (5) voting members of the commission. The commission shall adopt such rules and regulations as may govern the time and place for holding meetings, regular and special.

(j) No expenditure of the revenue from the tax authorized to be imposed pursuant to this section shall be made without the prior approval of the commission.

(8) This section shall stand repealed from and after July 1, 2014.

27-67-17. Payment of tax to commissioner, filing of returns.

§ 27-67-17. Payment of tax to commissioner, filing of returns.

[Until July 1, 2013, this section shall read as follows:]

(1) Except as otherwise provided in this section, the commissioner shall collect the tax imposed by this article, and every person subject to its provisions shall remit to the commissioner, on or before the twentieth day of each month, the amount of tax due by such person for the preceding calendar month. Returns and payments placed in the mail must be postmarked by the due date in order to be timely filed, except that when the due date falls on a weekend or holiday, returns and payments placed in the mail must be postmarked by the first working day following the due date in order to be

considered timely filed. Every taxpayer shall file a return with his remittance, which return shall be prescribed by the commissioner and shall show for the calendar month preceding the tax payment date, the total sale or purchase price, or value of tangible personal property or specified digital products sold, used, stored or consumed by him for benefit received or service performed, and such other information as the commissioner may deem pertinent and necessary for determining the amount of tax due thereunder.

(2) The commissioner, in his discretion, may authorize in writing the filing of returns and the payment of tax on a quarterly basis by any person required or authorized to pay the tax imposed, such authority to be subject to revocation for good cause by the commissioner.

(3) In instances where it is impractical to file returns and pay the tax monthly or quarterly, the commissioner may authorize the filing of semianual or annual returns.

(4) A taxpayer required to collect use taxes under this article and having an average monthly use tax liability of at least Twenty Thousand Dollars (\$20,000.00) for the preceding calendar year shall pay to the Department of Revenue on or before June 25, 2003, and on or before the twenty-fifth day of June of each succeeding year thereafter, an amount equal to at least seventy-five percent (75%) of such taxpayer's estimated use tax liability for the month of June of the current calendar year, or an amount equal to at least seventy-five percent (75%) of the taxpayer's use tax liability for the month of June of the preceding calendar year. Payments required to be made under this subsection must be received by the Department of Revenue no later than June 25 in order to be considered timely made. A taxpayer that fails to comply with the requirements of this subsection may be assessed a penalty in an amount equal to ten percent (10%) of the difference between any amount the taxpayer pays pursuant to this subsection and the taxpayer's actual use tax liability for the month of June for which the estimated payment was required to be made. Payments made by a taxpayer under this subsection shall not be considered to be collected for the purposes of any use tax diversions required by law until the taxpayer files a return for the actual use taxes collected during the month of June. This subsection shall not apply to any agency, department or instrumentality of the United States, any agency, department, institution, instrumentality or political subdivision of the State of Mississippi, or any agency, department, institution or instrumentality of any political subdivision of the State of Mississippi.

(5) The commissioner, in his discretion, may authorize the computation of the tax on the basis of a formula in lieu of direct accounting of specific properties in instances where such method will expedite, simplify or provide a more equitable means of determining liability under this article. All formulas shall be subject to revocation for good cause by the commissioner.

[From and after July 1, 2013, this section shall read as follows:]

(1) Except as otherwise provided in this section, the commissioner shall collect the tax imposed by this article, and every person subject to its

provisions shall remit to the commissioner, on or before the twentieth day of each month, the amount of tax due by such person for the preceding calendar month. Returns and payments placed in the mail must be postmarked by the due date in order to be timely filed, except that when the due date falls on a weekend or holiday, returns and payments placed in the mail must be postmarked by the first working day following the due date in order to be considered timely filed. Every taxpayer shall file a return with his remittance, which return shall be prescribed by the commissioner and shall show for the calendar month preceding the tax payment date, the total sale or purchase price, or value of tangible personal property or specified digital products sold, used, stored or consumed by him for benefit received or service performed, and such other information as the commissioner may deem pertinent and necessary for determining the amount of tax due thereunder.

(2) The commissioner, in his discretion, may authorize in writing the filing of returns and the payment of tax on a quarterly basis by any person required or authorized to pay the tax imposed, such authority to be subject to revocation for good cause by the commissioner.

(3) In instances where it is impractical to file returns and pay the tax monthly or quarterly, the commissioner may authorize the filing of semianual or annual returns.

(4) A taxpayer required to collect use taxes under this article and having an average monthly use tax liability of at least Fifty Thousand Dollars (\$50,000.00) for the preceding calendar year shall pay to the Department of Revenue on or before June 25, 2014, and on or before the twenty-fifth day of June of each succeeding year thereafter, an amount equal to at least seventy-five percent (75%) of such taxpayer's estimated use tax liability for the month of June of the current calendar year, or an amount equal to at least seventy-five percent (75%) of the taxpayer's use tax liability for the month of June of the preceding calendar year. Payments required to be made under this subsection must be received by the Department of Revenue no later than June 25 in order to be considered timely made. A taxpayer that fails to comply with the requirements of this subsection may be assessed a penalty in an amount equal to ten percent (10%) of the difference between any amount the taxpayer pays pursuant to this subsection and the taxpayer's actual use tax liability for the month of June for which the estimated payment was required to be made. Payments made by a taxpayer under this subsection shall not be considered to be collected for the purposes of any use tax diversions required by law until the taxpayer files a return for the actual use taxes collected during the month of June. This subsection shall not apply to any agency, department or instrumentality of the United States, any agency, department, institution, instrumentality or political subdivision of the State of Mississippi, or any agency, department, institution or instrumentality of any political subdivision of the State of Mississippi.

(5) The commissioner, in his discretion, may authorize the computation of the tax on the basis of a formula in lieu of direct accounting of specific

SEC.	
27-69-5.	Permit required, and penalty for failure to secure or renew same.
27-69-9.	Permit may be revoked and reinstated.
27-69-21.	Exemptions.
27-69-49.	Refund on damaged goods; how obtained.
27-69-51.	Refund for stamps shipped into another state; refund of tax paid on cigarettes in possession of wholesaler ceasing to do business in Mississippi.

§ 27-69-5. Permit required, and penalty for failure to secure or renew same.

(1) Every distributor, wholesaler, dealer or retailer who desires to become engaged in the sale or use of tobacco upon which a tax is required to be paid shall file with the commissioner an application for a permit to engage in such business. The application for a permit shall be filed on blanks to be furnished by the commissioner for that purpose. The application must be subscribed and sworn to by the person owning the business, or having an ownership interest in the business. If the applicant is a corporation, a duly authorized agent shall execute the application. The application shall show the name of such person, and in case of partnership, the name of each partner, the person's post office address, the location of the place of business to which the permit shall apply, and the nature of the business in which engaged, and any other information the commissioner may require. No distributor, wholesaler, dealer or retailer shall sell any tobacco until the application has been filed, the prescribed permit fee paid, and the permit obtained. Except as otherwise provided in this subsection, the permit shall expire on January 31 of each year. However, a retail permit shall continue in force during the time that the permit holder to whom it is issued continues in the same business at the same location unless such permit is revoked by the commissioner for cause or is revoked pursuant to any provision of Section 27-70-1 et seq., Section 75-23-1 et seq. or the

Mississippi Juvenile Tobacco Access Prevention Act in Sections 97-32-1 through 97-32-23.

(2) An application shall be filed, and a permit obtained for each place of business owned or operated by each distributor, wholesaler, dealer or retailer.

(3) Upon receipt of the application and any permit fee provided for in this chapter, the commissioner may issue to every distributor, wholesaler, dealer or retailer, for the place of business designated, a nonassignable permit, authorizing the sale or use of tobacco in the state. The permit shall provide that it is revocable, and may be forfeited or suspended upon violation of any provision of this chapter, the Mississippi Tobacco Youth Access Prevention Act of 1997, Section 27-70-7 et seq., Section 75-23-1 et seq. or any rule or regulation adopted by the commissioner. If the permit is revoked or suspended, the distributor, wholesaler, dealer or retailer shall not sell any tobacco from the place of business until a new permit is granted, or the suspension of the old permit removed.

(4) A permit cannot be transferred from one person to another, and the permit shall at all times be publicly displayed by the distributor, wholesaler, dealer or retailer in his place of business so as to be seen easily by the public. A permit may be refused to any person previously convicted of violations of this chapter or Section 27-70-1 et seq.

(5) Information contained on a permit may be disclosed to the holder of a wholesaler's permit, to law enforcement agencies of the federal government, state or any political subdivision of the state, and to the Attorney General and federal agencies responsible for administering tobacco laws.

The commissioner, in the event a permit is revoked, is required to notify all manufacturers, wholesalers and distributors having a permit required by this chapter, that the permit has been revoked, and such manufacturer, wholesaler and distributor is henceforth prohibited from selling taxable tobacco to such dealer or retailer. The commissioner may notify manufacturers, wholesalers and distributors as required by this paragraph either manually or electronically and shall specify by rule or regulation the method by which the notification shall be made.

This exemption from the payment of the tax can only be allowed by the commissioner on sales supported by proof that such taxable tobacco was not purchased for resale, but donated to the inmates of the institution claiming such exemption. This proof must be accompanied by an exemption claim form as prescribed by the commissioner and signed under penalty of perjury by an official of the institution requesting the exemption.

Revolving Fund, the Working Cash-Stabilization Reserve Fund and the Capital Expense Fund in the manner provided in this section.

(b) As used in this section, the term “unencumbered cash balance” or “unencumbered General Fund cash balance” means the amount in the State General Fund after deducting all appropriations and other expenditures. However, if the Legislature has authorized additional or deficit appropriations or transfers from the State General Fund for that fiscal year, those amounts shall be subtracted from the unencumbered cash balance in the General Fund before determining the amount available for distribution. The unencumbered General Fund cash balance shall not be determined until after August 31 of each year, and it shall not be made until the State Treasurer has received a certificate in writing from the Director of the Department of Finance and Administration, with notification to the Legislative Budget Office, showing the amount of the unencumbered General Fund cash balance.

For the purposes of this paragraph (c), the appropriations for the fiscal year shall be the total amount contained in the actual appropriation bills passed by the Legislature.

(d) To the Working Cash-Stabilization Reserve Fund, fifty percent (50%) of the amount of the unencumbered General Fund cash balance after the distributions are made under paragraphs (a), (b) and (c), not to exceed

As set out above, this section reflects the language of Section 1 of ch. 512, Laws of 2012, which contains language that specifically provides that it supersedes § 27-104-7 as amended by Laws of 2012, ch. 485.

§ 27-104-13. Revision of budget estimates for and reduction of funding allocations to general-fund and special-fund agencies and for “administration and other expenses” budget of Mississippi Department of Transportation; general fund revenue estimate to be adopted by Legislative Budget Office by sine die adjournment; transfers to General Fund.

(1) The State Fiscal Officer may disapprove or reduce and revise the estimates of general funds and state-source special funds for any general fund or special fund agency and for the “administration and other expenses” budget of the Mississippi Department of Transportation, in an amount not to exceed five percent (5%), if at any time he finds that funds will not be available within the period for which the budget is drawn, or if at any time he finds that the requested expenditures, or any part thereof, are not authorized by law, and that action shall be reported to the Legislative Budget Office.

The State Fiscal Officer may, upon his determination of need based upon a finding that funds will not be available within the period for which the budget is drawn, transfer funds as provided in Section 27-103-203, from the Working Cash-Stabilization Reserve Fund to the General Fund to supplement the general fund revenue.

If the estimates of general funds and state-source special funds of all general fund and special fund agencies and of the “administration and other expenses” budget of the Mississippi Department of Transportation have been reduced by five percent (5%), additional reductions may be made, but shall consist of a uniform percentage reduction of general funds and state-source special funds to all general fund and special fund agencies and to the “administration and other expenses” budget of the Mississippi Department of Transportation.

Any state-source special funds reduced under the provisions of this subsection (1) shall be transferred to the State General Fund upon requisitions for warrants signed by the respective agency head, and the transfer shall be made within a reasonable period to be determined by the State Fiscal Officer.

The provisions of this subsection (1) authorizing the State Fiscal Officer to disapprove or reduce and revise the estimates of general funds and state-source special funds for the “administration and other expenses” budget of the Mississippi Department of Transportation shall be suspended during the period from June 30, 2009, through June 30, 2010.

(2) The Department of Revenue and University Research Center, utilizing all available revenue forecast data, shall annually develop a general fund revenue estimate to be adopted by the Legislative Budget Office as of the date of sine die adjournment. If, at the end of October, or at the end of any month thereafter of any fiscal year, the revenues received for the fiscal year fall below

ninety-eight percent (98%) of the Legislative Budget Office general fund revenue estimate at the date of sine die adjournment, the State Fiscal Officer shall reduce allocations of general funds and state-source special funds to general fund and special fund agencies and to the “administration and other expenses” budget of the Mississippi Department of Transportation, in an amount necessary to keep expenditures within the sum of actual general fund receipts, including any transfers to the General Fund from the Working Cash-Stabilization Reserve Fund for the fiscal year.

The State Fiscal Officer may, upon his determination of need based on the revenue shortfall, transfer funds as provided in Section 27-103-203 from the Working Cash-Stabilization Reserve Fund to the General Fund to supplement the general fund revenue. State-source special funds in an amount equal to any reduction made under the provisions of this subsection (2) shall be transferred to the State General Fund upon requisitions for warrants signed by the respective agency head, and the transfer shall be made within a reasonable period to be determined by the State Fiscal Officer.

No agency’s allocation shall be reduced in an amount to exceed five percent (5%); however, if the allocations of general funds and state-source special funds to all general fund and special fund agencies and to the “administration and other expenses” budget of the Mississippi Department of Transportation have been reduced by five percent (5%), any additional reductions required to be made under this subsection (2) shall consist of a uniform percentage reduction of general funds and state-source special funds to all general fund and special fund agencies and to the “administration and other expenses” budget of the Mississippi Department of Transportation. Any receipt from loans authorized by Sections 31-17-101 through 31-17-123 shall not be included as revenue receipts.

The State Fiscal Officer shall immediately send notice of any action taken under authority of this subsection (2) to the Legislative Budget Office.

(3) For the purpose of this section, the term “state-source special funds” means any special funds in any agency derived from any source, but shall not include the following special funds: special funds derived from federal sources, from local or regional political subdivisions, from agricultural commodity assessments, or from donations; special funds derived from additional fees paid for the issuance of distinctive motor vehicle license tags or plates authorized under the provisions of Chapter 19, Title 27, Mississippi Code of 1972; special funds held in a fiduciary capacity for the benefit of specific persons or classes of persons; special funds of the Mississippi Veterans Affairs Board that are paid to the board by the veteran residents of state veterans homes to fund their monthly expenses at the state veterans homes; self-generated special funds of the state institutions of higher learning or the state

Estimates shall be filed with the Department of Finance and Administration not later than the first day of the month preceding the beginning period.

The Department of Finance and Administration may, in its discretion, restrict an agency to a monthly allotment period when it becomes evident that

(2) Unless otherwise specified in the agency appropriation bill, in the event any emergency or unforeseen circumstances shall arise, the agency head may authorize increases in major objects of expenditure within each specific budget within each appropriation bill in total amounts not to exceed ten percent (10%) of the appropriated amount of each object, provided that other major objects of expenditure are decreased by a corresponding dollar amount. Except as otherwise authorized in Section 7-5-39, no transfers shall be authorized which increase or decrease the major object of expenditure "Salaries, Wages and Fringe Benefits," or which increase the major object of expenditure "Capital Outlay — Equipment." The transfer shall be effective the first working day of the month following timely submissions required herein. In cases of extreme hardship, certified in writing by the agency head and submitted with timely submissions required herein, the Executive Director of the Department of Finance and Administration, in his discretion, may authorize an earlier effective date for the transfer.

(3) No former employee who is receiving State of Mississippi retirement benefits shall be hired under contract for an amount exceeding Twenty Thousand Dollars (\$20,000.00) a year without prior approval by an agency's proper governing board or authority. Upon approval of such contracts a written report shall be submitted detailing the cost and need of such contract services to the Chairmen and members of the Senate and House Appropriations Committees.

- 27-105-305. Publication for bids to keep county funds; content of bids; acceptance of bid; election by board of supervisors to submit certain bids to State Treasurer to determine acceptance of bid; authority of State Treasurer upon receipt of bids from board of supervisors.
- 27-105-315. Qualification as depository.

§ 27-105-305. Publication for bids to keep county funds; content of bids; acceptance of bid; election by board of supervisors to submit certain bids to State Treasurer to determine acceptance of bid; authority of State Treasurer upon receipt of bids from board of supervisors.

The board of supervisors at the regular December 1997 meeting, and annually thereafter or, in the discretion of the board of supervisors, every two (2) years thereafter, shall give notice to all financial institutions in its county whose accounts are insured by the Federal Deposit Insurance Corporation (or any successor thereto), by publication, that bids will be received from financial institutions at the following January meeting, or some subsequent meeting, for the privilege of keeping the county funds, or any part thereof, which notice shall refer by name to this article and it shall not be necessary to incorporate in the notice the provisions of this article; and at the January meeting, or a subsequent meeting as may be designated in the notice, as the case may be, the board of supervisors shall receive such bids or proposals as the financial institutions may make for the privilege of keeping the county funds, or any part thereof. The bids or proposals shall designate the kind of security as authorized by law which the financial institutions propose to give as security for funds, and the board shall cause the county funds and all other funds in the hands of the county treasurer to be deposited in the qualified financial institution or qualified institutions proposing the best terms and meeting the requirements provided in Section 27-105-315, having in view the safety of such

funds. However, if a bank submits a bid or offer to the board of supervisors to act as a depository for the county and the bid or offer, if accepted, would result in a contract in which a member of the board of supervisors would have a direct or indirect interest, the board of supervisors may elect to not open or consider any bids received and submit the matter to the State Treasurer. Upon receipt of the bids received from the board of supervisors, the State Treasury shall open and consider the bids received, select a depository or depositories, make all decisions and take any action within the authority of the board of supervisors under this section relating to the selection of a depository or depositories, including:

- (a) The selecting and opening of accounts;
- (b) Approval of securities;
- (c) The transfer and deposit of funds between depositories; and
- (d) All other related functions.

If the board of supervisors elects to open and consider the bids or offers, it shall not open or consider any bid which, if accepted, would result in a contract in which a member of the board of supervisors would have a direct or indirect interest.

§ 27-105-315. Qualification as depository.

(1) Any financial institution in a county, or in an adjoining county where there is no financial institution in the county qualifying, whose accounts are insured by the Federal Deposit Insurance Corporation or any successors to that insurance corporation may qualify as a county depository, if the institution qualifies as a public funds depository under Section 27-105-5 or a public funds guaranty pool member under Sections 27-105-5 and 27-105-6. The qualified financial institution shall secure those deposits by placing qualified securities on deposit with the State Treasurer as provided in Section 27-105-5.

(2) Notwithstanding the foregoing, any financial institution whether or not meeting the prescribed ratio requirement whose accounts are insured by the Federal Deposit Insurance Corporation or any successors to that insurance corporation, may receive county funds in an amount not exceeding the amount that is insured by that insurance corporation and may qualify as a county depository to the extent of that insurance.

(3) For purposes of the foregoing subsection (2), a deposit or investment shall be within the amount that is insured by that insurance corporation if the deposit or investment is made on the following conditions:

(a) The financial institution arranges for the investment of the funds in interest-bearing accounts in one or more banks or savings and loan associations wherever located in the United States, for the account of the public depositor;

(b) The full amount of the principal and accrued interest of each such interest-bearing account is insured by the Federal Deposit Insurance Corporation;

(c) The financial institution acts as custodian for the public depositor with respect to the funds invested in the public depositor's account; and

(d) At the same time that such interest-bearing accounts are invested, the financial institution receives an amount of deposits from customers of other financial institutions located in the United States equal to or greater than the amount of the funds invested by the public depositor through the financial institution.
